PROFESSIONAL SUMMARY

Software Engineering graduate focused on web application development. Experience building modern interfaces and full-stack applications using JavaScript ecosystem technologies, both in personal projects and real-world environments. Seeking a Junior Developer position where I can contribute from day one and continue strengthening my technical skills.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, SQL, HTML, CSS

Frameworks & Libraries: React, Express.js, Tailwind CSS

Tools: Git, GitHub, Node.js, Vite, Android Studio

Databases: MySQL, MongoDB (basic knowledge)

Concepts: Object-Oriented Programming, web development, problem solving

PROJECTS

Personal Portfolio

Live

- Developed a professional portfolio website to showcase projects and technical skills.
- Built with React, Vite, and Tailwind CSS; deployed on Vercel.
- Backend structured with Node.js and Express.js.
- Focused on responsive design and user experience.

Mobile Application – Internal Project (UAQ)

2023 – 2024

- Developed a mobile application for internal university use with Android Studio.
- Implemented business logic and modular application structure.
- Performed requirement analysis and functional testing.

EXPERIENCE

IT Intern – Wireless Infrastructure, UAQ

2023 – 2024

- Configured and maintained wireless access points across the university network.
- Performed firmware upgrades and downgrades on network devices.
- Diagnosed and resolved wireless connectivity issues.
- Integrated devices into existing network infrastructure.

Service Desk – Safran MDS

2025

- Resolved technical incidents in a corporate production environment.
- Documented solutions and provided support to internal users.

EDUCATION

Software Engineering Degree

Autonomous University of Querétaro

2021 – 2025
